- 250 cd/m^2 Brightness
- SRS® TruSurround HD®
- Invisible Speakers
- Aspect Ratio Control
- Picture Mode/Sound Mode
- Auto Bright

* 2 HDMI™ Inputs

Is it a monitor? Or something better?

W62D Series supports Full HD 1080p resolution and features a built-in TV tuner that employs MPEG4 technolgy for rendition of movies, games, drama, and sports-just as vivid and realistic as an HDTV. Also, SRS TruSurrond HD with rich bass and realistic sound maximizes the impact of movie and games, while two HDMI connectors and various connecting terminals support convenient viewing of HD movies, high definition graphic games, and video clips.

MPEG4 based digital TV tuner, the standard format of digital TV broadcasting, supports viewing of high resolution HDTV without requiring a separate receiver.

This stunning picture is the reason you wanted HDTV in the first place. With almost double the pixel resolution, Full HD 1080p gives it superior picture quality over standard HDTV. You'll see details and colors like never before.

A 50,000:1 contrast ratio enables reproduction of delicate contrast differences and also supports clear display of colors for enjoyment of images, closest to their original state.
